

Keep Public Lands In Public Hands

For most of us, public lands offer the only opportunities to hunt, fish, hike and enjoy the outdoors with our families. Unfortunately, our outdoor heritage has been put at risk by a proposal in Congress that would allow for the bargain basement sell-off of our public lands to mining companies and other special interests. Some of America's most treasured public lands would be up for sale, closing them off forever to the traditions we cherish and want to pass on to our children. **Don't let this happen.**

**Please call Senator Allard at
(303) 220-7414 and Senator Salazar at
(303) 455-7600 and ask them to stand up
for America's outdoor heritage.**

**Tell them to reject any budget
reconciliation bill that includes this
damaging mining provision.**
