

## Sierra Club Sustainability Survey of Club Practices

### ENERGY USE:

1. Are meeting places easily accessed by public transportation/walking/cycling?
2. Can business be transacted without driving? Are conference calls and the Internet being utilized where possible?
3. If driving is required, is carpooling strongly encouraged?
4. Are Sierra Club offices too warm in the winter or too cold in the summer? Do they use compact fluorescent bulbs? Does the office purchase green sourced energy if it's an option?

### CLEAN WATER/LAND USE:

1. Do Sierra Club functions offer food that is local, organic and low on the food chain?
2. Does the Sierra Club office have low-flow toilets? Are non-phosphorous, biodegradable soaps and detergents used? Is grey water utilized?

### FORESTS/LAND USE:

1. Is more paper being used than is absolutely necessary? Is paper reused?
2. Are Chapter & Group newsletters printed on recycled paper? Is 100% recycled paper used in offices? Are print-outs and copies utilizing both sides of a page?
3. Do Sierra Club events and offices use coffee mugs, cloth towels and reusable plates?
