

It's not my world anymore. It's his, and I owe it to him to help stop global warming.

Scientists say that we can curb the most dangerous effects of our changing climate if we cut our carbon emissions by 80% by the year 2050. That's an achievable 2% reduction a year — the 2% Solution!

Everyone has a role to play — you, me, businesses and government. How about starting at home, washing the mountains of baby clothes in cold water in an energy-efficient washing machine? Then make sure to only run the machine with a full load. Hey, it all helps, it all adds up.

BE PART OF THE **2%** SOLUTION.
