

Ready to join
us in building a
sustainable &
just future?

The Idaho Climate Justice League and the Sierra Club are firmly **committed to fighting injustice and inequity** in the climate movement and our local communities. We strive to create an inclusive and welcoming environment in our Climate Justice League!

Who We Are

We're a dedicated team of youth climate advocates positioning ourselves at the forefront of change to tackle the threat of the climate crisis and its effects on the stability of our future. **We advocate for bold, grassroots action toward climate justice and a clean energy future for all!**

Our past work includes:

- Advocating for the passage of the City of Boise's 100% Clean Energy commitment & the City of Moscow's Climate Action Plan – **and winning both!**
- Creating a **Climate Justice Zine** showcasing youth voices & highlighting the importance of climate justice, energy democracy, and more!
- Pressuring the Public Utilities Commission to **protect rooftop and community-owned solar.**
- So much more!

What We Do

Our advocacy efforts take many forms. For example:

- Organizing **rallies, strikes, and walkouts**
- **Creating art:** think collages, a zine, chalk murals, banners and signs, etc.
- **Testifying** at public hearings
- **Writing** LTE's and Op-Eds
- Hosting **community engagement events**
- Holding movement-building, justice centered **teach-ins and workshops**

We're ready to be bold and creative in our advocacy for our future—one that will be just, sustainable, and people-powered.
