

Attention Hikers: I'm Hoping You Can Help Me...

I am doing research on the use of the hiking trail up the East Fork of the San Gabriel River to the Bridge to Nowhere and the Narrows beyond particularly prior to 1980.

If you have personally hiked this trail prior to the 1980 date I would appreciate a narrative of your experiences, and if you have dated photos of your trip that would be helpful too. If you know of someone who might have hiked this trail before the above date, please refer me to them or them to me.

Thanks very much!
