

# Cool City Challenge

We need your help to get Irvine to carbon neutrality by 2030.

The City of Irvine is seeking volunteers to participate in the Cool City Challenge — an ambitious, exploratory, and groundbreaking approach to reach communitywide and inclusive sustainability.

To secure \$1 million in grant funding and technical assistance for our climate efforts, we need **Cool Block Leaders** to make a meaningful impact on climate change in Irvine.

**Cool Block Leaders** will implement sustainability concepts on topics related to energy efficiency, water conservation, emergency preparedness, social justice, and more!

To volunteer to become a **Cool Block Leader**, contact [EnvironmentalPrograms@cityofirvine.org](mailto:EnvironmentalPrograms@cityofirvine.org) by **September 20**.
