In memoriam: Carole Walsh

It is with pain in our hearts that we have to announce that our very dear and loyal Broward Sierra member, Carole Walsh, has passed away during Thanksgiving week. She was surrounded by her loved ones, succumbing after a long battle with pancreatic cancer.

Many (perhaps all) of our Broward Sierrans do not know what goes into the on-going operations of our group, and while some of you may have heard her name, you may not know the details: Carole Walsh was the person who:

- Arranged the layout of our monthly newsletter, including the editing and proofreading, and made it ready for printing all by the monthly deadline.
- Helped maintain our Facebook page.
- Created flyers for our special events.
- Ensured that our website is always up-to-date and easy to use.

So, not only was Carole very much part of the Broward Sierra community, she was a significant part of where our group is today.

We can recall the days when, in spite of her also very busy daily work, she somehow found time to sit with us at fundraising activities or assist in promoting our Broward group events. In this regard, you all have probably seen her artwork; the many wonderful fliers she put together over all these years, be it for yearly picnics, holiday get-togethers, and special events (just to name one example, the beautiful Bee presentation flier, some years ago). Her great artwork has been a big part of our chapter's promotional undertaking.

We do hope that her family will find the strength to accept her passing, and we most certainly will not forget her enormous contributions to our Broward chapter.

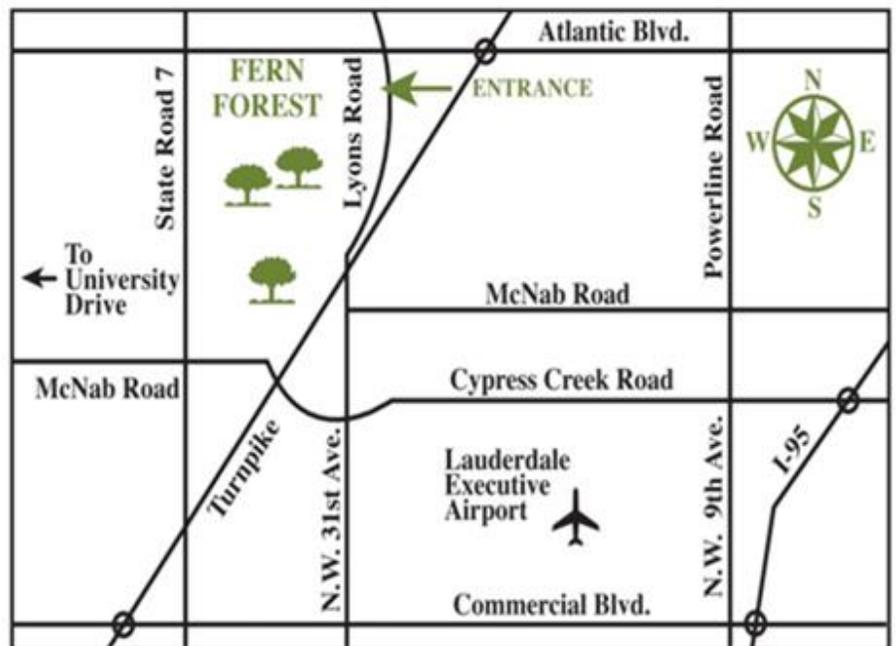

Carole - you certainly left an indelible impression in our group's history that we can never soon replace. May you rest in peace.

Ina Oost Topper, *Chair - Broward Sierra group.*
