Protect America's Environment For our Families . . . For our Future

Nov-Dec 2016

A Real "Jewell" of a Group!

Congratulations to
Allen Hernandez,
who just accepted the
position of Organizing
Manager for Southern
California. Allen joined
the Sierra Club in 2011
as an associate
organizer for the
My Generation/Beyond
Coal campaign.

group of about ten of our young Club activists from the East Coachella Valley were invited to attend the signing ceremony for the new Desert Renewable Energy Conservation Plan that designates the areas of public lands in the desert that are appropriated for commercial wind and solar energy development and those that are not. After the ceremony, the young folks had a wonderfully productive meeting with Interior Secretary Sally Jewell, where they talked primarily about the problems with the disappearing Salton Sea and the attendant issues of loss of bird habitat and the deteriorating air quality that is adversely affecting so many of the mostly poor folks who live in the areas around the lake.

She followed up the concerns that have been expressed by President Obama in a speech that he had given in Tahoe several weeks earlier, and assured them that the health of the Salton Sea and the people and birds who depended on it was very much on the minds of the administration and that they would be hearing more from her on this subject.

All of the young Club activists are part of Mina Barragan's awesome team. Mina works for Allen Hernandez and is jointly funded by the My Generation Campaign and the San Gorgonio Chapter.

Chapter's Nov Program: Travels in Japan and Russia

ong-time chapter members Ladd and Gail Seekins will present a slideshow of their travels in Japan and Russia at the November meeting of the San Gorgonio Chapter. In September and October of

the Fushimi Inari-taisha shrine with its 10,000 vermillion tori gates; the 1,200-year old bronze Buddha statue in Nara, the world's largest; and the historic samurai

houses and geisha districts of Kanazawa. On the last weekend

of the climbing season, the Seekins did a little climbing

on Mount Fuji, but rain turned them back just short of station seven.

In Russia the Seekins were leaders of a Rotary Friendship Exchange team hosted by Russian Rotarians in Vladivostok,

Khabarovsk, Blagovesh-chensk and Yakutsk. Their hosts organized cultural performances and tours of the local museums,

churches and other sights. In Irkutsk they celebrated 25 years of Rotary in Russia with the local Rotarians, visited the Taltsi open air museum and cruised on Lake Baikal. After the exchange, they spent a few days on their own in Ulan Ude, visiting churches, Buddhist temples and an Old Believers village.

The Seekins have travelled extensively and have presented slide shows at many past chapter meetings. Their most recent shows have been of their visits to national historic sites in the Eastern US and their travels in South Africa. Gail is a retired public health nurse who does extensive volunteer work for the Girl Scouts and her church. Ladd is a local business owner and volunteers for the Sierra Club and Rotary.

2015, the Seekins spent three weeks in Japan and nearly three more in Eastern Siberia and the Russian Far East. Their presentation will highlight the eleven cities they visited — five Japanese and six Russian.

During their independent travel in Japan, the Seekins visited Tokyo, Mount Fuji, Kyoto, Nara and Kanazawa. Highlights in Japan were the Tokyo National Museum; the Edo-Tokyo Museum; two of the imperial palaces in Kyoto;

The Stars are the Stars at Chapter's December Program!

rofessor, astronomer, photographer and dark sky advocate Tyler Nordgren is the speaker at the December 6th chapter meeting. He has titled his talk "Go for the Sun, Stay for the Stars." As well as discussing next year's total solar eclipse, he will show his stunning photography of the night sky over some of the most beautiful landscapes of America's national parks.

..... sierraclubsmg@gmail.com

On August 21, 2017, for the first time in almost a hundred years, a total solar eclipse will sweep across the U.S. "While this 'once in a lifetime' event will happen during the middle of the day and dark skies will not be necessary, those who travel to one of America's scenic wilderness areas will get a second treat on the nights around the eclipse when they see the summer Milky Way arch overhead from the darkest skies in America. From starry skies to next year's

total solar eclipse, the national parks offer the premier location to see the beauty of the natural world on Earth and above

it. Come for the Sun, but stay for the stars," Dr. Nordgren said.

He is a Full Professor of Physics and Astronomy

at the University of Redlands. While earning his PhD in astronomy at Cornell University, Dr. Nordgren has used modern observatories around the world as part of his research. In 2004 and 2012, NASA's rovers Spirit, Opportunity and Curiosity landed on Mars carrying sundials, or "MarsDials" on board which Dr. Nordgren helped design with a team of seven other scientists and artists.

Since 2005, Dr. Nordgren has worked with the U.S. National Park Service to promote astronomy education in U.S. national parks where the public still has a chance to see a natural nocturnal landscape that includes an

> unobstructed view of the Universe beyond our own atmosphere.

Dr. Nordgren has helped document this vanishing landscape with award-winning night sky photography that has been on display in galleries from New York City to Flagstaff, Arizona, and is on display in a number of national parks.

In 2010 his book Stars Above, Earth Below: A Guide to Astronomy in the National Parks spread the message of the importance of protecting the night sky. This interdisciplinary look at the intersection of the night sky, geology, art, history, exploration and environmental conservation and America's national parks was funded by The Planetary Society, the non-profit space advocacy organization founded by the late Carl Sagan.

In 2011 Dr. Nordgren was elected to the Board of Directors of the International Dark-Sky Association (IDA) the premier organization dedicated to protecting and preserving dark starry skies around the world. Dr. Nordgren now regularly tours the national parks giving talks to visitors and rangers alike educating both on the beauty of the night sky and how our national parks open a window on the Universe beyond.

Calendar of Outings, Meetings, and Other Events

NOVEMBER-DECEMBER 2016

The outings calendar is on the Internet at http://sangorgonio.sierraclub.org

CALENDAR SUBMISSIONS

DEADLINE: Items for the January/February 2017 Calendar are due by December 1, 2016.

FORMAT items similar to those below. Send items electronically if possible.

OUTINGS: Send outings write-ups to your group or section Outings Chair.

MEETINGS & other events: Send electronically to Ladd Seekins at <ladd.g.seekins@gmail.com>

GENERAL INFORMATION, RULES & DISCLAIMERS

All Outings Leaders are Chapter Certified Leaders having appropriate Outings Training Courses, First Aid Courses, & experience for the Outings they lead. LEADERS may exclude individuals from participation if they believe they may not be qualified. Non-Sierra Club members may join outings unless otherwise stated in the write-up. All participants agree to abide by the Leader's rules. Participants should CALL THE LEADER AHEAD TO SIGN-UP.

WHAT TO BRING

Many Outings specify items to be carried by EACH participant. Do not attend Outings without the specified items unless you have first discussed it with the leader. Often the TEN ESSENTIALS are required. They are: 1) map, 2) compass, 3), flashlight, 4) knife, 5) windproof/waterproof matches

in waterproof case, 6) fire starter, 7) first aid kit, 8) extra food & water for emergency use only, 9) extra clothing including rainwear, & 10) sun protection including sunscreen/sunglasses/hat.

ADVENTURE PASS SPECIAL NOTICE

See box centered on this page. THE FOREST SERVICE IS IN THE PROCESS OF UPDATING MAPS WHERE THIS PASS IS REQUIRED. Be sure to contact the leader regarding permits. If you arrive at the meeting place WHERE A PASS IS REQUIRED without making arrangements with the leader and you don't have a pass or find a ride in a vehicle with a pass, you MAY not be able to attend the outing. A \$.50 contribution from everyone in the vehicle is reasonable for annual passes (above normal mileage contribution).

CARPOOLING POLICY

In the interests of facilitating the logistics of some outings, it is customary that participants make carpooling arrangements. The Sierra Club does not have insurance for carpooling arrangements & assumes no liability for them. Carpooling, ride sharing, or anything similar is strictly a private arrangement among the participants. Participants assume the risks associated with this travel. Drivers should have adequate insurance coverage & their vehicles should have no safety defects. Drivers of carpools agree to not consume any alcoholic beverages. It is customary for riders to share expenses with the driver. Five cents per mile per person for short trips is suggested while three cents per mile per person over 100 miles is usually reasonable.

In order to participate on one of the Sierra Club's outings, you will need to sign the following liability waiver:

Sign-In Sheet & Acknowledgment of Outing Member Responsibility, Express Assumption of Risk, & Release of Liability

I understand that during my participation in this Sierra Club Outing, I may be exposed to a variety of hazards & risks, foreseen or unforeseen, which are inherent in each Outing & cannot be eliminated without destroying the unique character of the Outing. These inherent risks include, but are not limited to, the dangers of serious personal injury, property damage, & death ("Injuries & Damages") from exposure to the hazards of travel & the Sierra Club has not tried to contradict or minimize my understanding of these risks. I know that Injuries & Damages can occur by natural causes or activities of other persons, animals, trip members, trip leaders & assistants or third parties, either as a result of negligence or because of other reasons. I understand that risks of such Injuries & Damages are involved in adventure travel such as Sierra Club Outings & I appreciate that I may have to exercise extra care for my own person & for others around me in the face of such hazards. I further understand that on this Outing there may not be rescue or medical facilities or expertise necessary to deal with the Injuries & Damages to which I may be exposed.

In consideration for my acceptance as a participant on this Outing, & the services & amenities to be provided by the Sierra Club in connection with the Outing, I confirm my understanding that:

> I have read any rules & conditions applicable to the Outing made available to me; I will pay any costs & fees for the Outing; & I acknowledge my participation is at the discretion of the leader.

> The Outing begins & ends at the location where the Outing officially commences with leader & participants in attendance, as designated by the Sierra Club ("Trailhead"). The Outing does not include carpooling, transportation, or transit to & from the Trailhead, & I am personally responsible for all risks associated with this travel. This does not apply to transportation provided by the Sierra Club after the commencement & before the end of the Outing.

> If I decide to leave early & not to complete the Outing as planned, I assume all risks inherent in my decision to leave & waive all liability against the Sierra Club arising from that decision. Likewise, if the leader has concluded the Outing, & I decide to go forward without the leader, I assume all risks inherent in my decision to go forward & waive all liability against the Sierra Club arising from that decision.

> This Agreement is intended to be as broad & inclusive as is permitted by law. If any provision or any part of any provision of this Agreement is held to be invalid or legally unenforceable for any reason, the remainder of this Agreement shall not be affected thereby & shall remain valid & fully enforceable.

> To the fullest extent allowed by law, I agree to WAIVE, DISCHARGE CLAIMS, & RE-LEASE FROM LIABILITY, & to INDEMNIFY & HOLD HARMLESS the Sierra Club, its officers, directors, employees, agents, & leaders from any & all liability on account of, or in any way resulting from Injuries & Damages, even if caused by negligence of the Sierra Club its officers, directors, employees, agents, & leaders, in any way connected with this Outing. I understand & intend that this assumption of risk & release is binding upon my heirs, executors, administrators & assigns, & includes any minors accompanying me on the Outing.

I have read this document in its entirety & I freely & voluntarily assume all risks of such Injuries & Damages & notwithstanding such risks, I agree to participate in the Outing. Note: If the participant is a minor, the minor's guardian must sign on the minor's behalf.

**ADVENTURE PASS SPECIAL NOTICE

utings occurring in the San Bernardino, Angeles, Cleveland, or Los Padres National Forests may require a Forest Service "Adventure Pass" for each vehicle. The Forest Service designates where the passes are required. Generally, areas that have developed parking and may include toilet facilities, interpretive signs and trash cans require passes and unimproved areas do not require passes. These Outings will be preceded by ** in the listings that follow and/or the leader may indicate the need for Adventure Passes. While leaders try to provide accurate information, ultimately it is the vehicle's driver that assumes responsibility to adhere to all rules, regulations and laws – not the Sierra Club. The permits cost \$30 per year or \$5 per day; however, they may not be obtainable the day of your outing. As a passenger, you are expected to share some of the cost of the daily passes, along with a mileage contribution, along with the others in the vehicle. Golden Eagle Passports and Golden Age Passports may be used in lieu or the Adventure Pass.

NOV 5 (SAT) 8:30 AM PCT: VAN DUESEN WEST HIKE

This hike will start at the Van Dusen/PCT crossing. We will hike west along the PCT for approximately 4 miles, have our snack and return to our vehicles. This part of the PCT is an exceptionally peaceful and lovely area to hike. This will be a moderate, 8-mile hike with little elevation gain. Bad weather cancels. MEET: be at the Convention Center parking lot before 8:30 am, we will carpool to trailhead. BRING: ten essentials, 2 liters of water, snack/lunch, sun protection, layered clothing, hiking boots, trekking poles and a camera. RESERVATIONS: contact Hike Leader Judy Atkinson (909) 289-1932, judy5723@ BIG BEAR GROUP

NOV 5 (SAT) 9:00 AM SB MTS, DOGWOOD TRAIL

NOV 6 (SUN) 7:30 AM MECCA HILLS CANYON

Spend the first day of Pacific Standard Time in the desert. This hike will be a bit different from those I've led in the past. We'll be exploring and enjoying the geology, botany, and beauty of one of the many canyons in Mecca Hills. There's no trail and no specific mileage. Hikers who want to move at a slower pace, take a closer look at surroundings, take photographs without being left. behind, or who just want a nice walk in the desert should like this change from regular 2-4 mph trail hikes. The point isn't so much mileage (although we'll hike 4-6 miles with gradually increasing elevation) as enjoyment of the environs. We'll be hiking up a wash, past mudstone formations and maybe hoodoos, looking for slots to squeeze through and caves to explore. If there's any rain before the hike there might even be a few early wildflowers. RATING: Moderate due to uneven footing, no trail, and shade less exposure. MEET: We'll meet under the big sign at the TA Travel Stop parking lot along Interstate10 just east of Indio at 7:30 AM and carpool several miles to the trailhead, taking as few cars as possible since the dirt parking area is small. BRING: Ten essentials including layered clothing (a windbreaker might be wise), 2-4 liters of water, lunch, snacks, sun protection (hat, sunglasses, long sleeve shirt, umbrella if desired -- there's no shade), personal first aid kit, and trekking poles. We will practice No Trace hiking by packing out all our fruit peels, trash, & used toilet paper. The wash may be muddy in some areas so wear appropriate boots. Rain cancels. WEATHER: This time of year can be quite variable in conditions -- clear & sunny to overcast & wet -- so check the forecast prior to departure. Rain in the high desert could flood the canyon so rain absolutely cancels this hike. RESERVATIONS: Contact Hike Leader, L.J. Foster, by sending an email to eljayeff@verizon.net or by leaving a message at (951) 845-9440.

NOV 12 (SAT) 8:30 AM JOSHUA TREE, EUREKA PEAK

The point of this semi-loop hike isn't so much to gain the peak, as you can take a dirt road to the top, but rather to enjoy the process of getting there as we sample a number of the nice trails in the Black Rock Canyon area on the western end of Joshua Tree. And yes, from the peak we will enjoy great views of the surrounding valleys, plus San Jacinto and San Gorgonio. We have quite a few route choices, but most likely will take the California Riding and Hiking trail for a short distance to the Eureka Peak Trail, and return on the Burnt Hill trail. Total distance is about 9 miles, with a climb of 1600 feet to get on top of the 5600' peak, the fourth highest in Joshua Tree. RATED: Moderate. MEET: Black Rock Visitor's Center, 9800 Black Rock Canyon Road, Yucca Valley, CA 92284. You do not go through an entrance station and no fee is required. BRING: Ten essentials, layered clothing, sun protection, lunch, and 2.5-liters of water RESERVATIONS: Contact Dave Melton, Hike Leader at (760) 408-2456 or dmelton61@yahoo.com **BIG BEAR GROUP**

NOV 12 (SAT) 9:00 AM JOSHUA TREE: WEST SIDE LOOP

WINNERS of the Local Sierra Club Raffle

he final drawing was held on July 17, 2016, and thirty prizes were awarded to lucky ticket holders. The success of the RAFFLE was entirely the result of generous Big Bear area merchants! Prizes ranged from breathless helicopter scenic rides, to Lake Tours, Action Tours Segway rides, Costa fire wood, and hair salons. A special thanks to Terrance McCorkle (760) 252-2194 for donating five custom made birdhouses comprised of re-claimed lumber.

Four Summit Mount Whitney

In the last week of August, 2016, four individuals began a 76 mile round-trip backpacking trip from Horseshoe Meadows/Cottonwood Pass (9,950') with the goal of climbing to the top of Mt. Whitney (14,495'). This is the highest peak in the continental United States of America. Our return trip was an exact return of the John Muir Trail and Pacific Crest Trail that we followed in reaching the top of Mt. Whitney.

Lorrie Ann Monson, the fourth member of our team, reached within one-mile of the top of Mt. Whitney before becoming too light headed and dizzy to continue. For her safety, Lorrie Ann returned to our base camp at Guitar Lake.

VOTE for New Board Members

Each year at this time, we ask members of the Sierra Club Big Bear Group to vote on those incubate and new board members for the coming year. This year we have only one incubate board member to vote upon.

Please vote for the proposed board member:

Ed Wallace Incumbent Board Conservation Chair

A second ballot is provided for those families that have two Sierra Club members in the same household. Each member is to vote separately.

Completed Ballots are to be returned to:

The Sierra Club Big Bear Group, P.O. Box 3048, Big Bear Lake, CA 92315

The open board position is for the years 2017 - 2018. If elected, the above individual will serve for two consecutive years. The board position and responsibilities as an active board member will be determined at our first meeting in January 2017.

Candidate Profile:

Ed Wallace has been a Sierra Club member for over 30 years and is currently responsible for overseeing our conservation activities within the Big Bear Valley. Ed is a past-Group Chairman of the Big Bear Group and is on the board of the San Bernardino Land Trust and on the Big Bear Valley Educational Trust.

Also, Ed received two distinguished Sierra Club service awards; the Ralph Salisbury Award and the Joe Momeyer Award. Further, Ed Wallace was selected as Man of the Year by the Big Bear Rotary Club in 2015.

Stewardship Activities in Arrastre Canyon
By Jenny Wilder

We invite visitors and locals to join us in our stewardship activities in Arrastre Canyon just south of Apple Valley. We encourage you to explore this lovely area of natural beauty, while also helping to keep it beautiful. Stewardship is about adding a deeper level of appreciation for the area and learning more by doing good and feeling good about your visit.

Mojave Group . . . Continued from Page 6

There is a rich history in these foothills of the San Bernardino Mountains and lots of opportunity to enjoy fantastic views of the valley and mountains beyond.

The Juniper Flats Area is a transition zone between the desert and mountain ecosystems and the area is packed with biodiversity, cultural sites and numerous seeps and springs.

The Friends of Juniper Flats want this area to remain open to the public, so that it can serve as the much-needed connection to nature we all crave. But keeping it open and in a natural state means taking care of the land and trails. A thriving native habitat provides better forage and shelter for wildlife, so in addition to more native plants and wildflowers

visitors get to see more wildlife.

In conjunction with the BLM (Bureau of Land Management) Volunteer work days are held regularly and these provide a hands-on experience for stewardship and an opportunity to enjoy good exercise and great scenery while doing good work. On workdays you might find yourself raking out tracks, hauling logs or rocks to put next to a red closed sign, taking photos, fixing fences, helping to identify animal tracks, birds or plants (and learning more about them), or re-installing route signs.

In addition, if you are looking for a career in the great outdoors or career change, these workdays will look good on your resume!

Several roads and trails in the area Juniper Flats Area welcome hikers, horseback riders, mountain bicyclists, motorcycle riders as well as

street legal and green sticker OHVs.

Come out and find out more. Contact Alyssa Canoff at BLM Barstow. She is Visitor Use, Monitoring and Restoration Fellow in charge of the Restoration Project in Arrastre Canyon. Office: (760) 252-6051 Email: acanoff@blm.gov. Ask to be added to her email list for updates on public outreach activities and volunteer workdays.

The next public outreach day is Saturday, November 12. Friends of Juniper Flats are also coordinating "monitoring hikes." If you like to hike in hilly terrain to feel good and get something done, please contact Jenny Wilder at JensOasis@aol.com (760 220 0730) or Susan Stueber at sstueber16@gmail.com (760 900 5330). We can use your help! In addition to the hikes, there are opportunities to "monitor" from a 4x4 vehicle, horse, mountain bike or ATV.

If you like to leave it better than you found it, we hope you will join us in our efforts!

Mountains Group

By Dave Barrie, Group Chair

et's start with the Mountains Group Executive Committee (ExCom) election ballot and your voting options.

On Page 9 you will find the Mountains Group "paper ballot" that you can cut out, complete, and mail in. Or, as you will see on the ballot, you can to go to the Mountains Group website and vote online. And that is a first for us. We are pretty sure that it is going to work too! (Fingers crossed.)

On the ballot, in addition to the ExCom candidates you will find a "Proposal" that we are asking you to vote on as well.

The Proposal is asking for approval to revise our bylaws to allow for a fixed ExCom term start date of January 1st, instead of "the first meeting of the year."

The Mountains Group ExCom approved the change, the Chapter ExCom approved the change, the Sierra Club Bylaws, Standing Rules and Election Committee approved the change, and now, if you please, we need you to approve the change. The Mountains Group ExCom recommends a yes vote on this!

And a note about online voting: The Sierra Club has a policy of ballots being secret ballots but says about online voting - "Because it is not possible with current technology to verify one-member/one-vote without an Election Committee member having access to each member's voted online ballot, the requirement to maintain strict ballot secrecy has been removed. We still expect that members' votes will be kept confidential by the individual examining the online voting record." And that is how we will treat your ballot.

Finally, sadly, I need to mention the loss of two of our long-time Sierra Club and Mountains Group members.

Margaret Spiess was an active participant – in the Sierra Club, in her mountain community and in life. She was a hiker, an Outings Leader (including inner-city outings), an Overseer for gatherings at Keller Hut, and helped raise funds for us working at the Mountain Thrift Shoppe. Margaret was a teacher, an artist, an active environmental advocate and a dear friend to many of us. We'll miss her.

Carol Pedder was fierce, combative, dedicated, and tough. She loved our mountains and she loved animals and fought tirelessly to protect both. She was an environmental leader in our community, a Mountains Group member and the "Founding Mother" of the Save Our Forest Association. She showed us that if one environmental group is good, two is better. We'll miss her.

risit our interactive blog "What's up" at: http://sierraconservation.blogspot.com/ After our brief summer vacation, we started working hard on our agenda. We met at the pool at Laurie and David Webster's house:

Members of Executive Committee and Associates

Transportation Task Group

Exhaust from gasoline engines has been a major contributor to the air quality of Temecula Valley. We are tasked to examine local transportation problems, seek methods to promote mass-transit systems, and collaborate with other organizations pursuing similar objectives. Multiple studies have identified air pollution as an initiator for asthma, chronic obstructive pulmonary disease, cardiovascular disease, diabetes, and lung cancer.

Highway 15/215 in Temecula Valley is the main artery for connecting San Diego to the highways 10, 40 and route 91. In addition, it is the principle route for commuters to Los Angeles, Riverside, Escondido and San Diego. These vehicles all have contributed to the airborne pollution in our valley.

The existing train connecting Perris to Riverside is infrequent and very slow to be useful for commuters. The proposed rapid train linking San Francisco to Los Angeles or San Diego would be many years to come; in addition, it would be infrequent and could not function for commuters. The frequently stated justification for these deficiencies has been few commuter are using the present transit system in town; the commuters complain the system is infrequent, or not in existence, and very slow to be practical.

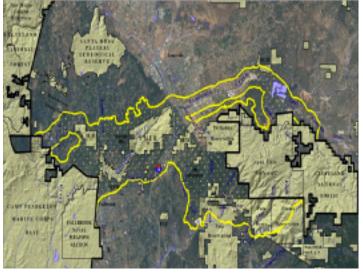

What are the solutions? Our Task Group will be examining both short-term and longterm practical objectives. We will pursue a greater access to local public transportation within our community. Our agenda includes attending the T-Now, organizing outings using mass transit.

Wildlife Corridor

The Santa Margarita Ecological Reserve and the Santa Margarita River are essential to wildlife in the region and should be permanently protected. Highway 15 in Temecula

divides the natural routes for wildlife passage between the western section of Cleveland National Forest, Santa Rosa Plateau Ecological Reserve, and the eastern section of the Forest.

Two proposed major developments in Temecula, Altair a n d Temecula Inn Golf Course, close to Highway 15 would further exasperate the problem. The Altair development would be located on

Temecula Valley and the natural wildlife habitats

the western side of Temecula, adjacent to the Old Town (see graphic left). The Temecula Inn Golf Course Development would be located on the present golf course land. We are working and consulting with other local organizations pursuing the same objective of a

We have been examining the details for development of both projects. We are commending elimination of Phase 4 so that the wildlife crossing at Temecula Creek is less impacted.

Meadow Day Teri Biancardi notes: "The next Meadow Day is on Saturday, October 29th. It would be a model for Riverside County's watershed management." Among the topics to be presented are:

- Grasslands and greenhouse gasses: California's new energy policy;
- Meadowview's milestone stream restoration: a first for Riverside County;
- Working with Nature to Heal the Harm;
- Restoring the meadow: a comprehensive land management plan;
- A team on the ground: Meadowview's service minded volunteers; • The state of the meadow: where we are and where we're going

Election: Tim Sheridan

Maryellen Garcia recommended: "Tim Sheridan of California's 42 Congressional District supports our Sierra Club goals." Tim will challenge Ken Calvert, who has had an abysmal anti-environmental record in the House. The Santa Margarita Group enthusiastically encourages voting for Sheridan in November.

Reflections on California Naturalist Certification Conference Margaret Meyncke offered feedback: "This conference was Fabulous! It is a great opportunity to get training as a naturalist and also connect with citizen science projects throughout the state of California.

How do we connect this fantastic opportunity with the Sierra Club?

• Get the word out through social media and other means of communication. This program

- is a solid fit with the mission and goals of the Sierra Club.
- Create a chapter-wide campaign of support that will unify us and provide a common cause to create connection.
- Take personal responsibility.

Tahquitz Group's Excom Election

By Joan Taylor

Candidates' Biographical Statements

Kathy Kelley has been an active member of the Sierra Club for many years. An avid sportswoman even during her busy career as a physician, Kathy "took to the hills" more seriously after her retirement. Kathy moved to the Coachella Valley and proceeded to hike 1,200 miles of the PCT! Kathy currently serves as Vice-Chair of the Group, and has held the positions of Chair and Program Chair in the past.

Jeff Morgan has been a resident of the Tahquitz Group area since the 1970s and Sierra Club member for over two decades. Currently Jeff is Chair of the Tahquitz Group and represents the Group on Chapter Excom, the Desert Committee and many other local boards and committees. Jeff is currently working on water, power and proposed residential developments in unsuitable areas regarding the environment and endangered species. He would like to continue this work on behalf of the Group and the Club.

Joan Taylor is currently Tahquitz Group Conservation Chair, Chapter Excom member and a lead activist concerning large-scale renewable energy projects in California deserts as well as the Salton Sea. Having been a land conservationist for decades, Joan is proud to have been part of the Tahquitz Group team that was very instrumental in the designation of the two nearby National Monuments, as well as the Santa Rosa Wilderness and the Coachella Valley Multiple Species Plan. She also lead the Group successfully battling several bad developments in the Coachella Valley, including the erstwhile Shadowrock, Palmwood, Mountain Falls, Palm Hills, and other ill-advised projects in sensitive canyons and hillsides.

Mid County Parkway: The six-lane Mid County Parkway (MCP) between the cities of San Jacinto and Perris is designed to allow projects like the Villages of Lakeview to be built. The Center for Biological Diversity is leading litigation efforts on the MCP with the help of the Sierra Club as well as several other local groups. According to their brief challenging the Federal Highway Administration's approval of the project, there is a troubling disregard for low income, minority communities in Perris that will bear the brunt of the project.

The Riverside County GPU, officially known as General Plan Amendment 960 (GPA 960) lawsuit, is moving slowly through settlement talks. The environmental groups have not accepted all of the county's suggested settlement positions and plan to

Update World Logistics Center: On August 17 a Riverside County Superior Court judge denied a request by those opposed to the World Logistics Center (WLC) to block the initiative process the city of Moreno Valley used to approve the controversial warehouse project. We are currently looking as to whether we will be able to appeal. The opponents, including the Center for Biological Diversity, Earthjustice, the Sierra Club and other environmental groups, said the developer did not adequately address traffic, air pollution, and other concerns. Here are links to two articles with more details: http://www.pe.com/articles/environmental-810973-city-state.html?page=1 & http:// www.pe.com/articles/city-812812-districtair.html To give some perspective, the project area is 2,610 acres which larger than the city of Grand Terrace; it would generate 68,721 vehicle trips a day.

Villages of Lakeview (VOL): The Riverside County Planning Department released the draft environmental impact report (DEIR) for the VOL on September 30. The deadline for comments is November 14, 2016. The DEIR is available online at: http://planning.rctlma.org/Home/TheVillagesofLakeviewSP00342.aspx

The project would induce more trucks to travel the route (almost 14,000 daily truck trips), worsen air quality, and endanger wildlife at the San Jacinto Wildlife Area which is south of Highway 60 and the WLC project. If that meeting is cancelled, for any reason (such as weather), the start date moves further into the new year, sometimes as much as 4 months. To eliminate this problem, an ExCom term start date of one minute after midnight on January 1st has been identified as best meeting our needs. The Executive Committee recommends a "Yes" vote.

MEETING

Monthly meeting except for July & August. PLACE: Sterling Inn, Regency Room, 17738 Francesca, Victorville. (One block north of Bear Valley Rd. on Ridgecrest.) Enter on Ridgecrest side of the building. INFO: SUSAN STUEBER, susanquintin.stueber@gmail.com

MOJAVE GROUP

DEC 17 (SAT) 7:45 AM JOSHUA TREE: NORTH VIEW LOOP HIKE

This will be my second slower-paced hike, adjusted for those hikers who would like to take in the sights, have more frequent short breaks, baby their knees, and take their time completing the 7-8mile hike. We'll be on sections of two to three different day hike trails that provide varied views and terrain from boulders to washes. The trailhead lies 1.7 miles from the West Entrance Station on the north side of the park road. We'll take the North View Trail for 2.7 miles inside the Wilderness boundary, up and down past some spectacular views, canyon wrens, and giant rock outcrops, and pick up the winding Maze Trail for 1.2 miles. We may head back to the cars at this point or continue on to the Window Rock trail for 1.9 miles for a great view of a thunderbird "window", and rejoin the Maze Trail for the remaining 1.2 miles back to the parking area. Don't forget your camera. RATED: Moderate, with some short climbs and descending, but no more than a few hundred feet total elevation gain overall. Some parts of the North View Trail have rough footing and there is some deep sand, which can strain knees. All the trails are exposed with very little shade. MEET: 7:30 AM at the Joshua Tree Visitor Center parking lot, 6554 Park Boulevard, Joshua Tree CA 92252. Parking at the trailhead is extremely limited (4 cars, or park along the road) so we'll take as few cars as possible. BRING: Ten essentials including layered clothing (a windbreaker might be wise), 2-4 liters of water, lunch, snacks, sun protection (hat, sunglasses, long sleeve shirt, and umbrella if desired), personal first aid kit, and trekking poles. We will practice No Trace hiking by packing out all our fruit peels, trash, & used toilet paper, so be prepared for that as well. WEATHER: December in the high desert can be warm or cold, so please check the forecast prior to the date. RAIN OR SNOW CANCELS. RESERVATIONS: Email LEADER: LJ Foster at eljayeff@verizon.net (best) **BIG BEAR GROUP** or leave a message (name, contact number) at (951) 845-9440.

DEC 18 (SUN) 8:30 AM SUNSET PEAK HIKE

Hoping for a snowy view of the San Gabriels from top of Sunset Peak, a former fire lookout. Hike is 7 miles, 1400 feet gain on a gradually ascending fire road. Bring: Hiking boots, layered clothing, snacks or lunch, and 2 liters of water. Contact leader for meeting place: LEADER: Mary Ann Ruiz, ruizmaryann@gmail.com or 909-815-9379.

DEC 21 (WED) 9:00 AM TERRI PEAK

HIKE

Difficult 5-mile round-trip hike up Terri Peak, overlooking Lake Perris with 1000 ft. elevation gain. We start promptly at 9:00 a.m. Bring water, snack and sturdy shoes. Rain cancels. MEET: from 60 Freeway exit at Moreno Beach Drive, go south for 3.4 mi., then turn left. on Via del Lago. Park in the dirt area on right side just past the housing tract, do not enter Lake Perris SRA. DEC 31 (SAT) 8:30 AM BLACK ROCK CANYON/WARREN PEAK HIKE

Take a break from the holidays and enjoy a New Year's Eve hike in Joshua Tree! This loop hike combines easy wash walking in pretty Black Rock Canyon; a nice occasionally steep trail through the aptly named Panorama Loop; a short but steep walk-up ascent of Warren Peak on an occasionally loose trail; followed by a longer descent on a use trail off the north side of the peak that brings us back to the trail system for a short return to the trailhead. The excellent view from the peak takes in the surrounding valleys, plus San Jacinto and San Gorgonio. Vegetation in the canyon includes Joshua trees, pinyon/juniper, and oak. Total distance is about 7 miles. Starting elevation is 4000 ft., with an 1100 ft. gain to the top of the peak. RATED: Moderate due to occasional steep climbs and descents. MEET: Black Rock Visitor's Center, 9800 Black Rock Canyon Road, Yucca Valley, CA 92284. The meeting point offers easy access on the west side of the park; you do not go through an entrance station and no fee is required. We should be back to the trailhead by 3:00 pm. BRING: ten essentials, hiking pole, layered clothing, sun protection, lunch, and 2.5-liters of water RESERVATIONS: Contact Dave Melton, Hike Leader at (760) 408-2456 or dmelton61@yahoo.com

You Can Help Save the Sierra Club's Home in Yosemite NP!

he Yosemite Conservation Heritage Center (YCHC) is a National Historic Landmark built by the Sierra Club in 1903. It is the first permanent Visitor Center in Yosemite Valley and home to the Sierra Club's oldest educational program. Featuring rough-hewn granite masonry, a steep-pitched wooden gabled roof, exposed hammer beams, and scissor trusses, the building lends itself to lofty thoughts and inspiration.

Many notable Sierra Club pioneers have guided the program and cared for the building including, Edward T. Parsons, Ansel Adams, Joseph N. LeConte ("Little Joe") and Marion Randall Parsons. Today, the Curator is highly regarded John Muir historian and author, Bonnie J. Gisel, Ph.D.

In 2016 Sierra Club Board of Directors voted to stop funding this unique program. Please help us Save the Sierra Club Home in Yosemite National Park!

If we don't meet our funding goal, the Sierra Club's presence in Yosemite National Park will be gone forever. We need your help NOW. Save the Yosemite Conservation Heritage Center by giving generously today!

Please Donate Today!

Your tax deductible donation provides us with operating funds for 2017 and gives us time to begin our Endowment campaign for the YCHC.

Do Your Part to Turn Our Representation GREEN!

By

Jono Hildner, San Gorgonio Chapter Political Chair

he election on November 8 is a great opportunity for all of us to help make a major change in the kind of environmental representation that our area deserves. We've got four endorsed challengers to anti-environmental members of the state Assembly and two challengers to anti-environmental members of county Boards of Supervisors. They need and deserve our support at the polls. With your vote, they can make a real change and send a message to those who would continue to spend tons of money to support policies that continue to foul our air.

We urge you to be sure to VOTE and vote for the candidates and measures endorsed by the SIERRA CLUB:

United States President: Hillary Clinton (D) United States Senate: Kamala Harris (D) United States House of Representatives: Congressional District 31: Pete Aguilar (D) Congressional District 35: Norma Torres (D) Congressional District 36: Raul Ruiz (D) Congressional District 41: Mark Takano (D)
