Constellation's
Sustainable Electric Vehicle
Initiative

Electric Vehicle 101

EZ-EV PROVIDES EVERYTHING YOU NEED TO DRIVE ELECTRIC

To increase the adoption of electric vehicles, we make things easy:

- **Exclusive discounts on cars**
- **Personal EV Experts**
- **Convenient online & mobile info**
- **EV accessories:**
 - Test Drives @ Work
 - Power
 - Home Chargers
 - Simplified Installs

SAVINGS!

Save \$1500+ a year driving electric!

BREATHE CLEANER AIR.

The transportation sector accounts for 27% of all greenhouse gas emissions!

MARYLAND IS ONE OF THE Z.E.V. STATES.

(ZEV = ZERO EMISSION VEHICLE)

A goal has been set to have 60,000 vehicles registered in Maryland by 2020
and 300,000 by 2025!

EVS ARE FUN TO DRIVE!

Try it for yourself at the Ride & Drive immediately following this session!

Learn more about going electric:

INSTANT TORQUE

No gears, no excessive weight, aerodynamic.

Shhh... EVs ARE QUIET

Driving an EV reduces the noise pollution in the areas in which you drive.

NO OIL CHANGES – EVER

No engine or transmission system.

REGENERATIVE BRAKING

Regenerative braking is a feature that captures and reuses energy that results from the friction of braking.

RANGE

NISSAN LEAF
150 mile range

Chevy Volt
53 + 367 mile range

AC/Heat will impact battery range.

Best fuel efficiency in city driving, not highway.

Learn more about these cars:
